

Product development services for growing businesses

We understand your business has customers and markets to serve.

As your business grows, your product development bandwidth begins to limit your ability to respond to customer needs.

The Product Manufactory team will work with you to understand and execute projects without interrupting your business workflow.

The Product Manufactory provides—

- ✦ New Perspective
- ✦ Quick development cycle
- ✦ Turn-key solutions
- ✦ Projects shipped faster
- ✦ New approach to old problems
- ✦ Expertise on demand
- ✦ Access to design resources as you need them

“Speed-to-market and hitting schedule were huge parts of the business case. The Manufactory team jumped in and made it happen.”

—MIKE PICINI, VP SSL BUSINESS UNIT, MOLEX INCORPORATED
