

Startup Café

featuring Patrick Chapman
CTO of Solarbridge Technologies

Startup Café is a luncheon series to highlight tech entrepreneurs that have lead their companies and created successes. Entrepreneurs share their story and provide insights on success and what they wish they had known before starting.

About the Speaker: Patrick Chapman, Ph.D., is co-founder and chief technology officer of SolarBridge. Chapman manages the company's intellectual property, plans technology for next-generation products, and provides technical guidance to customers and the SolarBridge engineering and marketing teams. Before joining SolarBridge, Chapman was a tenured faculty member at the University of Illinois at Urbana-Champaign department of Electrical and Computer Engineering Department. He holds a doctorate degree from Purdue University, and Bachelor of Science and Master of Science degrees from the University of

Missouri-Rolla. As a senior member, Chapman is very active in the Institute of Electrical and Electronics Engineers (IEEE) and is chairing the IEEE Applied Power Electronics Conference in 2011.
