Ameren

Ameren Corporation is a Fortune 500 company that trades on the New York Stock Exchange under the symbol AEE. It is the parent company of Ameren Illinois, based in Collinsville, Ill., and Ameren Missouri in St. Louis. Ameren Transmission Company, also based in St. Louis, designs and builds regional transmission projects. Employing more than 9,000 personnel, Ameren powers the quality of life for 2.4 million electric customers and more than 900,000 natural gas customers across a 64,000-square-mile area. Ameren companies generate a net capacity of nearly 10,200 megawatts of electricity and own more than 7,500 circuit miles of transmission lines. Ameren's rates are some of the lowest in the nation.

Ameren is helping lead the next energy revolution, from the EV infrastructure to renewables connectivity. It is the most exciting time to join an energy company that is using electrification to bring a more sustainable future to all of us.

What are we looking for?
Full-time professionals

Ascent Integrated Tech

We build a single screen solution for incident command for first responders and
warfighters. We do this by integrating health and environmental alerts as well as
mapping and location of the operator in real-time.

We measure our success by the number of first responders and warfighters that make it
home safe to their families.

What are we looking for?
Full-time professionals, part-time professionals, part-time interns, full-time interns

Riverbed Technology

Digitization has caused explosive growth in applications, connected devices, and data. Networks are hybrid and complex, combining on- and off-premises infrastructure, connected by private and public transport types. Apps are distributed, dynamic, increasingly delivered as a service, and run in data centers and clouds. Users are mobile and remote accessing applications from multiple locations and devices. For the customers we serve, our mission is to deliver exceptional network performance and visibility for any application. Our Network and Application Performance Platform, which is secure, open, and flexible, is comprised of best-in-class network performance management, WAN optimization, application acceleration, and SD-WAN solutions. Our

market-leading network performance management solution provides enterprise-scale visibility and analytics across every packet, flow, and device to quickly detect and remediate performance issues and security threats. Our market-leading WAN optimization technology increases network efficiency and performance by up to 100x while reducing bandwidth utilization across hybrid and software-defined networks. Our application acceleration solution overcomes latency for fast, reliable delivery of SaaS, cloud, and on-premises applications to any user, regardless of location or network type. Our enterprise-grade SD-WAN solution simplifies and automates network functions to deliver cloud-ready agility and cost savings.

Riverbed offers a rewarding experience of working with the best minds in the industry, delivering exceptional network performance and visibility for any application. We are proud of our great culture that continuously fosters innovation, collaboration, and diverse work environments. We remain committed to attracting, developing, and retaining the most diverse group of talent to better serve our customers.

Wolfram

Founded by Stephen Wolfram in 1987, Wolfram is one of the world's most respected computer, web, and cloud software companies, as well as a powerhouse of scientific and technical innovation. As a pioneer in computation and computational knowledge, the company has pursued a long-term vision to develop the science, technology, and tools to make computation an ever-more-potent force in today's and tomorrow's world.

Do you want to be part of what's next? At Wolfram we've been changing the world with our ideas and products for nearly three decades. Join us in our long-term vision to develop the science, technology, and tools of the future.

What are we looking for?

Full-time professionals and part-time interns

We're looking for exceptional individuals who are clear-thinking, pragmatic and energetic about getting things done well, and we're less interested in what you've already done than in what you will do with Wolfram.

Specific positions and specific areas we are interesting in hiring in:

Sales, Project Management, Systems Administrators, DevOps Engineers

Do you hire international students (undergraduate and graduate)?
Undergraduate: on a case-by-case basis; Graduate: on a case-by-case basis
